

# Online Fire Safety training

# RRC ONLINE

“Ensure you comply with fire safety law with our interactive video based training course”

Gary Fallaize, RRC Online

# The Law

The "Regulatory Reform Safety Order" states all employees should receive regular basic fire awareness safety training.

## Why?

To reduce and prevent fire occurring in the first place, and to know what to do in the event of fire.

## The Solution

Training your employees with our online system will go a long way to give them greater awareness of the threat posed by fire to people and property.

Visit our Web site for more information about us and the online course.

### Online Video based E-Learning Fire Safety Training Course

- Institute of Fire Engineers accredited
- Full administrative audit trail
- Complies with fire safety law
- Engaging video content
- Reduces training costs
- Automatic certification
