

NEBOSH International Diploma in Environmental Management

Introduction

This Supplement contains updates to your study material for Units ED1 and IDEM2 of the NEBOSH International Diploma in Environmental Management. Please read it carefully.

Unit ED1 Element 3

3.1 Environmental Management Systems

Management Systems

ISO 14005:2010

This subsection has been replaced by the following revised subsection:

“ISO 14005:2019

ISO 14005:2019 may be regarded as the international equivalent of BS 8555, in that it provides guidelines for the phased implementation of an EMS.”

Unit ED1 Element 7

7.1 Responsible Waste Management

Steps to Responsible Waste Management

Transportation

In the **Topic Focus** box in this subsection, the second paragraph of the text has been replaced by the following:

“When transporting waste internationally, the requirements of the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal 1992 should often be considered. An amendment in 2019 added certain types of mixed and contaminated plastic waste to the Convention.

In the EU, the Convention is implemented through **Regulation (EC) 1013/2006**, the requirements of which include:”

The bullet points which follow are unchanged.

Unit IDEM2 Element 2

2.1 Waste Management Multilateral Treaties

The Basel Convention

In this subsection, the opening text has been amended in the same way as for Unit ED1 Element 7 above.

The bullet points which follow are unchanged.
