TRAINING

Testimonial

Course: [IEMA Introduction to Environmental Management Systems Courses](#)

Type: e-learning

"I am finding it surprisingly convenient and user-friendly - it really strikes me that a lot of thought has gone into how individuals can study effectively at a distance, bearing in mind work & family commitments always demand time and create distractions which can make it really difficult. The way the course is put together allows bite sized learning, which I have found really valuable as I can dip into it at lunchtime and on the train commute and feel that I have learnt and achieved something

I enrolled on RRC's "Introduction to Environmental Management Systems" to gain a detailed and practical understanding of EMSs, particularly ISO 14001. The fact that the course is IEMA accredited and provides professional recognition was important for me. I was quite apprehensive about undertaking an e-learning course, however I have found it to be clearly written, well-structured and thoughtfully designed. The electronic learning environment is really convenient, easy to access and navigate around. It provides all the course information, further points of reference and allows easy communication with the tutors who are approachable and helpful. I am thoroughly enjoying the course and have no hesitation in recommending it or RRC as training providers. I hope to continue further vocational training and upskilling with RRC in the future"

Dr Hazel Ann Nash

Research Associate in Sustainable Production, Technology and Resource Use

ESRC Centre for Business Relationships, Accountability, Sustainability and Society (BRASS)

Cardiff University
