

RRC's NEBOSH HSE Certificate in Process Safety Management

RRC's **NEBOSH HSE Certificate in Process Safety Management** has been jointly designed by NEBOSH and the UK enforcement agency - the Health and Safety Executive (HSE). It is designed specifically for those with safety responsibilities in the process industry, such as chemical manufacturing and oil & gas. It focuses on international standards and management systems, highlighting the importance of process safety management in the process industry, enabling students to effectively discharge workplace safety responsibilities. The **NEBOSH HSE Certificate in Process Safety Management** is suitable for those who have the responsibility for ensuring safety as part of their day-to-day duties including:

- Managers, supervisors and employee representatives within the process industry
- Newly-appointed health and safety advisers

Course Content

RRC's NEBOSH HSE Certificate in Process Safety Management is based on International Standards and Management Systems. The course consists of one unit:

Unit PSM1: Process Safety Management

- Process Safety Leadership
- Management of Process Risk
- Process Safety Hazard Control
- Fire Protection and Emergency Response

Assessment

The NEBOSH HSE Certificate in Process Safety Management is assessed by a 90 minute exam consisting of 40 multiple choice questions which is completed online.

Entry Requirements

The **NEBOSH Certificate in Process Safety Management** is a technical qualification. There are no specific entry requirements but the course does assume a certain level of knowledge.

Health and Safety knowledge.

This course assumes a good understanding of general health and safety and it is therefore highly recommended that students hold the [NEBOSH International General Certificate](#) or equivalent before studying the NEBOSH HSE Certificate in Process Safety Management.

Experience of the Process Industry.

Experience of the process industry (such as oil and gas or chemical processing) will be helpful.
