

CITB Safety Plus

RRC provide a range of CITB course from the Site Safety Plus Scheme which provides building, civil engineering and allied industries with a framework for training and career development for all levels of the workforce. RRC's CITB courses cover the complete CITB syllabus, providing the knowledge need to pass first time.

CITB Health and Safety Awareness

The CITB City Safety Plus Health and Safety Awareness course provides a good awareness of the main issues involved in construction safety, including compliance with health and safety law. It is designed for employees who have just started working in the construction and civil engineering industries and need training.

Course Content

The CITB Health and Safety Awareness course covers:

- The need to prevent accidents
- Understanding health and safety law
- Identifying how each worker's role fits into the control and management of the site
- Understanding the need for risk assessments and method statements
- Appreciating the need to work safely and to stop and ask for advice if unsure
- The obligation to report unsafe acts to prevent an accident

Assessment

The CITB Health and Safety Awareness course is assessed by a short multiple choice assessment.
