

CITB Safety Plus

RRC provide a range of CITB course from the Site Safety Plus Scheme which provides building, civil engineering and allied industries with a framework for training and career development for all levels of the workforce. RRC's CITB courses cover the complete CITB syllabus, providing the knowledge need to pass first time.

CITB Site Management Safety Training

The CITB Site Management Safety Training Scheme (SMSTS) is designed for those with management responsibilities within the construction industry who need to be confident that they understand the key health and safety issues that are relevant to their role. It covers all relevant legislation and is particularly suitable for:

- Construction site managers
- Agents and quantity surveyors
- Construction directors and project directors
- Anyone responsible for planning, organising, monitoring, controlling and administering groups of construction staff

Course Content

The CITB Site Management Safety Training Scheme is valid for 5 years from the date the course is successfully completed and covers:

- The implementation of all health, safety, welfare and environmental legislation that affects construction managers during their daily work
- How to implement new guidance and industry best practice
- Managers' duties and responsibilities with regards to health, safety, welfare and the environment

Assessment

The CITB Site Management Safety Training course is assessed by a short multiple choice exam and a tutor review, which may include short-answer tests, oral questions and answers, simulated practical exercises, role-play and problem-solving activities.
