What our students say

“Whenever I saw a good job there was a requirement for a NEBOSH health and safety qualification. I really wanted to be in the health and safety profession, so when a close friend recommended RRC Training and their e-learning courses, I didn’t hesitate.

RRC’s e-learning course was perfect for me because of its flexibility. I enrolled in October but knew I couldn’t give it my full attention until I had finished my Masters. The flexibility allowed me to go online when I could with no time restrictions – and once my degree was complete, I gave it 100%.

One of the great things about RRC’s e-learning course is you can test yourself as you go, which I found invaluable. It highlighted my weaknesses so I knew exactly where I had to put in more revision. Plus RRC has online forums, where you can chat to other students and ask questions. The e-Zone really helped me and provided masses of information to help me successfully pass the course.

RRC’s Customer Services Advisers were great – so supportive and helpful. RRC made everything straightforward, and with so much accessibility, I really couldn’t fail. Now, thanks to RRC, I’m perfectly placed to pursue my health & safety career.”

“I have taken the online Accident Investigation course and I successfully scored 92%. Your online portal is so brilliant and user friendly. Your training materials on my NEBOSH, CIEH and the Accident Investigation courses were perfect and straight to the point”

“I want to thank RRC for the...course material that is on the online library...I find the new course notes really easy to read and straight to the point. I think they will really boost our chances to pass the exams. Thank you!”

Lawrence Sama
NEBOSH International Certificate by distance learning

“I am finding it surprisingly convenient and user-friendly – it really strikes me that a lot of thought has gone into how individuals can study effectively at a distance, bearing in mind work & family commitments always demand time and create distractions which can make it really difficult. The way the course is put together allows bite sized learning, which I have found really valuable as I can dip into it at lunchtime and on the train commute and feel that I have learnt and achieved something.

I enrolled on RRC’s “Introduction to Environmental Management Systems” to gain a detailed and practical understanding of EMSs, particularly ISO 14001. The fact that the course is IEMA accredited and provides professional recognition was important for me. I was quite apprehensive about undertaking an e-learning course, however I have found it to be clearly written, well-structured and thoughtfully designed. The electronic learning environment is really convenient, easy to access and navigate around. It provides all the course information, further points of reference and allows easy communication with the tutors who are approachable and helpful. I am thoroughly enjoying the course and have no hesitation in recommending it or RRC as training providers. I hope to continue further vocational training and upskilling with RRC in the future”

“What our students say

“I today was my first experience with RRC’s short course, I never expected that it will be that efficient and well structured, in spite of the fact that I have studied the topic so deeply in Unit A of the NEBOSH International Diploma. I can confirm that I have well refreshed my knowledge I gained in the Diploma, many thanks to everyone who contributed in the establishment of this course, well done”
