

ISO 45001 Training Courses

Working in partnership with the BSI, RRC offer a range of ISO 45001 courses.

ISO 45001 is intended to replace the widely implemented BS OHSAS 18001 and it is anticipated that organizations currently certified to BS OHSAS 18001 will need to migrate to ISO 45001 within three years of the new standard's publication.

BSI Group, also known as the British Standards Institution, is a multinational business services provider whose principal activity is the production of standards and the supply of standards-related services including training.

ISO 45001 Requirements

Learn how to embed continual improvement at the heart of your organization through an ISO 45001 Occupational Health and Safety Management System (OH&S MS). The new standard is an opportunity for organizations to align their strategic direction and increase focus on improving health and safety performance.

Identify the structure and requirements of an effective management system, and what this means for you. Gain a thorough understanding of the history and development of ISO 45001, key terms, definitions, and the ISO standardized high level structure. You'll learn to interpret and apply the key concepts and principles of the standard to existing processes within your organization.

Course Content

To gain an understanding of effective occupational health and safety management in an organization, by providing a framework to:

- Prevent work-related injury and ill health to workers
- Implement safe and healthy workplaces for workers, and other persons under its control
- Proactively improve OH&S performance

Course Outcomes

- What is an Occupational Health and Safety Management System (OH&S MS)
- Why an OH&S MS is important to an organization and its benefits
- The background of ISO 45001 and its intended outcome
- The terms and definitions used
- The key concepts and structure of ISO 45001
- The main requirements of ISO 45001

ISO 45001 Internal Auditor

The adoption of an occupational health and safety management system (OH&S MS) is intended to enable an organization to improve its OH&S performance in the enhancement of health and safety at work, and to manage its OH&S risks. An internal audit is an essential element to an effective OH&S MS, and by attending this course you will benefit by learning and developing the skills to help improve your organization's OH&S performance.

This course develops the necessary skills to assess and report on the conformance and implementation of processes based on ISO 45001. You'll learn how to initiate an audit, prepare and conduct audit activities, compile and distribute audit reports and complete follow-up activities.

Course Content

Why this course

To provide guidance and practical experience in planning, executing, reporting and audit follow up of an internal audit, when monitoring the effectiveness and conformity of an OH&S MS.

Course Outcomes

You will learn about:

- The guidelines of management system auditing according to ISO 19011:2011
- The application of these guidelines to auditing ISO 45001

Have the skills to:

- Initiate the audit
- Prepare audit activities
- Conduct audit activities
- Prepare and distribute the audit report
- Complete the audit
- Audit follow up

OHAS Lead Auditor ISO 45001: 2018

Our OH&S Management Systems Auditor/Lead Auditor Training Course teaches the fundamental auditing principles and practices, in conformance with national and international accepted norms and regulations relating to OH&S requirements. By attending this course, delegates will also gain the necessary auditing skills through activity-based learning, and practical auditing experience with coaching, group workshops and open forum discussions. Experienced BSI tutors will guide delegates through the entire audit process; from initiation to conducting audit follow-up.

Successful completion of this training course, by passing the examination and skills assessment, will demonstrate knowledge and basic skills to undertake and lead a management systems audit.

Course Content

Why this course

To provide delegates with the knowledge and skills required to perform first, second and third-party audits of occupational health and safety management systems against ISO 45001, in accordance with ISO 19011 and ISO/IEC 17021, as applicable.

Course Outcomes

On completion, successful delegates will have the knowledge and skills to:

Knowledge

- Explain the purpose of an occupational health and safety management system, of occupational health and safety management system standards, of management system audit, of third-party certification, and the business benefits of improved performance of the occupational health and safety management system.
- Explain the role of an auditor to plan, conduct, report and follow up an occupational health and safety management system audit in accordance with ISO 19011 and ISO/IEC 17021, as appropriate.

Skills

- Plan, conduct, report and follow-up an audit of an occupational health and safety management system to establish conformity (or otherwise) with ISO 45001, and in accordance with ISO 19011 and ISO/IEC 17021 where appropriate.
