

## IOSH Leading Safely

Business leaders also need to lead on health and safety. **IOSH Leading Safely** aims to be squarely focused on coaching you to become an effective leader for health and safety.

Uniquely, it comes with a diagnostic tool (a mobile app) to help you analyse your current Health and Safety leadership performance and, most importantly, devise action plans to improve.

The **IOSH Leading Safely** course is workshop based, highly personalised and focused on your organisational needs.

It complements [IOSH Safety for Executives & Directors](#) which focuses on ensuring senior management are fully aware of their joint and individual health and safety responsibilities in the day-to-day running of their organisation.

**IOSH Leading Safely** is intended for:

- Anyone with leadership responsibilities - senior managers, directors, department heads, executives, board members, business owners, CEO, trustees
- Anyone who aspires to these roles or who wants to understand the language of safety leadership

## Course Content

**IOSH Leading Safely** covers the following topics:

- Diagnosing your current behaviours (using a mobile app questionnaire before the course)
- Understanding safety and health leadership, its importance and key behaviours
- Looking at when things go wrong - case studies
- Getting leadership right - case studies
- Actions and commitment - reviewing your behaviours and making personal commitments for change

## Assessment

**IOSH Leading Safely** is assessed by the quality of your personal action plan.
